Minneapolis Taxi Cab License Decal Installation Instruction

Beginning in 2015 Minneapolis Licensed Taxi Vehicle Owners will be installing the taxi decals on their taxi vehicles. It is important that you follow these directions to ensure the decal stays in place and is in the proper location on the vehicle.

Steps to follow for applying taxi decal to vehicle:

1. What you will need: Window cleaner, a scraper, rag and new taxi 2016 decal.
2. First take scraper and remove old decal from the vehicle window.
3. Next using the window cleaner, spray the area the decal will be placed and thoroughly clean the area and wipe dry with the rag.
4. Once dry, place the new decal 1 to 2 inches above the lowest portion of the cleaned window, making sure the decal is level.
5. Then lift one side of the decal and remove the white protective paper to expose the sticky surface of the decal and press onto the window. Smooth out to remove any air bubbles and to secure decal to window surface. Repeat these steps for the other side of the decal.
